One Jing-Zhang, four Haidian roots

A heritage-park spine, with distinct roles for the three key areas

Green: gardens · blue: innovation · clay: public ground

01 Zhongzhiyuan / Making Garden

Make, repair and verify in controlled settings, separate from public passage.

02 AI Origin / Inquiry Garden

Read and review in the garden; the strongest ring frames the most open discussion.

03 Dazhongsi / Exchange Garden

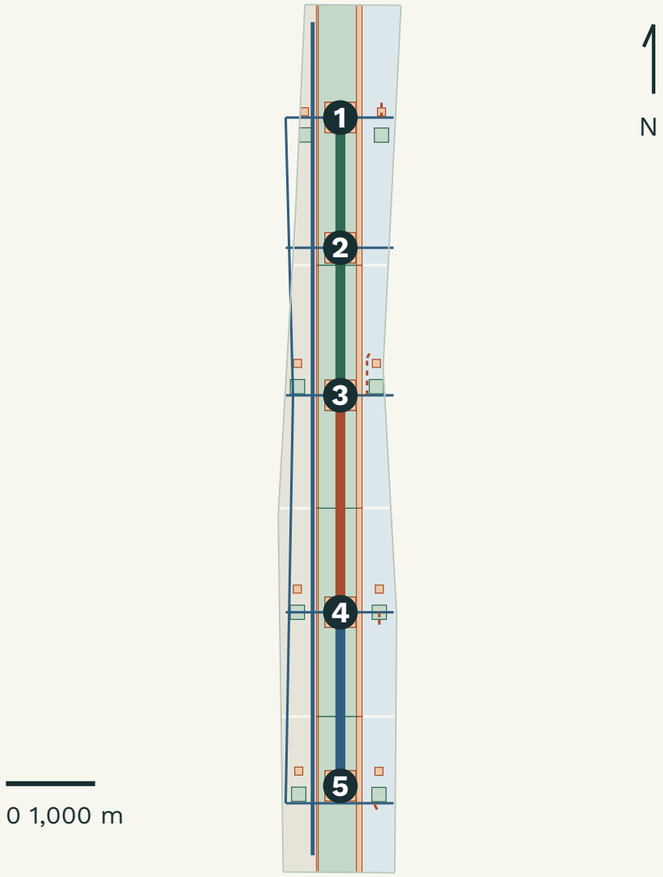

Public demonstration and human support; cultural interpretation without operating the ancient bell.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Three ridges connect five gardens

Continuous ground network, local undulating form; no kilometre-long building bridges

01 **READING / NORTH**

Making-Living-Inquiry: planted landform and reading shelters.

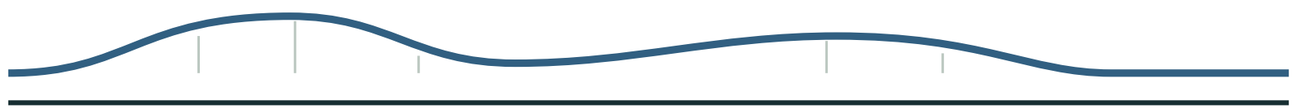

02 **MAKING / MIDDLE**

Inquiry-Commons: a rising workshop roof and making porches.

03 **MEETING / SOUTH**

Commons-Exchange: a rising forum roof and an arrival court.

RIGHT: local sections, not to scale; colour rises, black stays level. LEFT: route themes and dashed candidate approaches, not surveyed.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Five ensembles, not five buildings

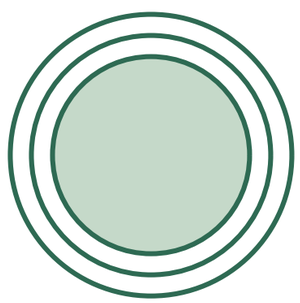

Four building-led ensembles and one landscape garden; provisional siting, not parcel permission

01

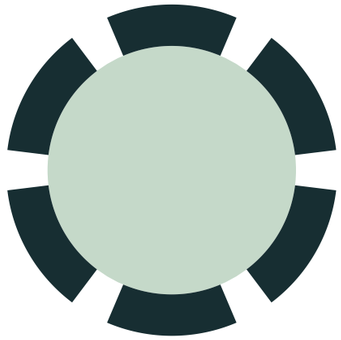

Making court

02

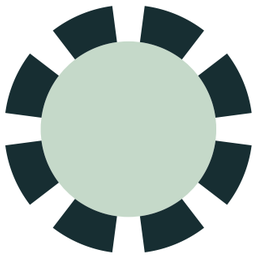

Living garden

03

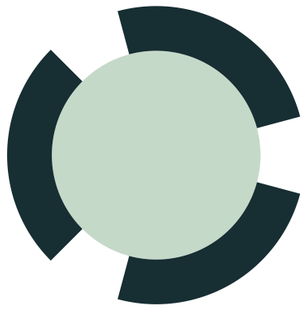

Inquiry commons

04

Commons streets

05

Exchange forum

MODEL PLAN TYPES / SAME SCALE. Whole-line maps retain north-south distances.

Inquiry uses a 200 m model diameter; others differ in scale and openings. The 29 footprints comprise 25 ensemble segments and four rearranged infill types. Living Garden adds no building.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Reasons to stay, beyond an event

Reading, making and public passage; AI-generated pedestrian-level type study

PASS WITHOUT JOINING

A level garden route joins reading and making frontages, without scans, registration or test participation.

Isolate hazardous work. Use lawful indoor rooms in winter and retain ordinary public passage.

AI-generated local type scene, not a site photograph, permit or engineering validation; do not measure building count or height from it.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Haidian roots meet Jing-Zhang

Sourced local history; spatial choices are contemporary interpretations

GARDENS	Voids and walking → quiet court
ACADEMIES	Inquiry and evidence → review table
ZHONGGUANCUN	Making and repair → workshop porch
JING-ZHANG	School–rail history → civic corridor

Sources: Haidian garden plan, PKU Yanyuan history, Tsinghua history museum and Beijing NPC cultural study. The gardens are wider-district references, not five parcels inside this boundary.

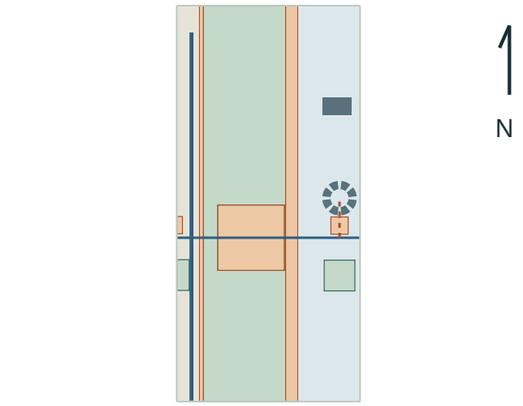

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Three places, three everyday roles

Origin asks; Zhongzhiyuan makes; Dazhongsi hosts first use. Positions are provisional

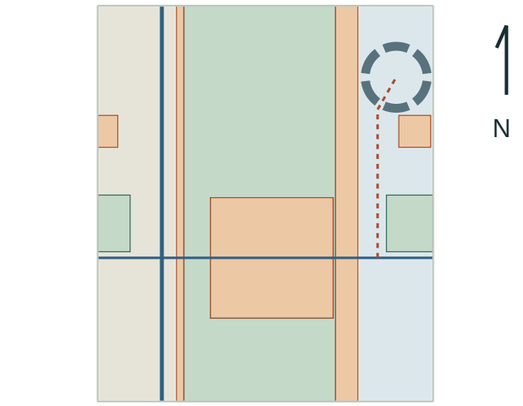

Zhongzhiyuan / make

Verify prototypes in a controlled bay; share methods on the open porch.

PROV-KEY-001

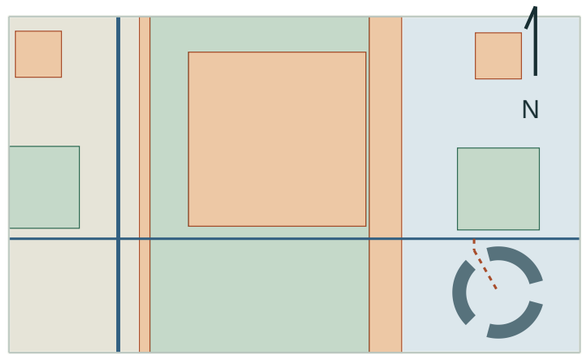

Origin / ask & review

Quiet and making courts adjoin; public crossing avoids test areas.

PROV-KEY-002

Dazhongsi / first use

Combine work displays, human support and everyday commerce.

PROV-KEY-003

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Match controls before fixing height

Partial official controls found; neither 80 nor 100 m is a universal allowance

01

36 / 45 / 60 / 80 / 100 m

Jing-Zhang blocks / PDF pp.8-9,36

Northern limit Chengfu Road; not the full call corridor.

02

80 m ≠ all 80 m

North Xueyuan / PDF pp.1-2

A centre <=60 m; B/J about70 m. Read detailed clauses.

03

60 m / 24 m

Lanjinglijia / PDF pp.1-3

Named parcels; existing project and link floor-area rules.

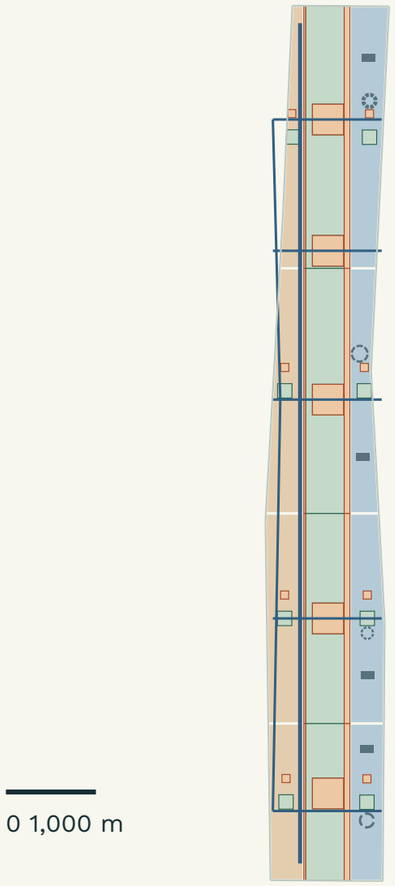

DECISION: match parcel → overlay views/daylight/setbacks → massing envelope. Current 60/80 m studies are hypothetical.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

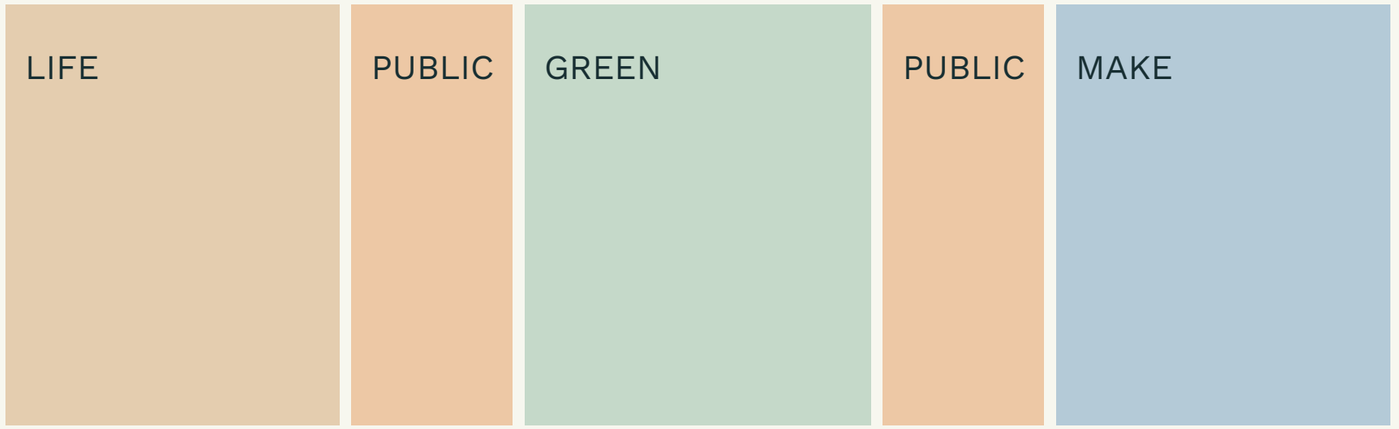

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Public ground between life and invention

Complete model partition; conceptual bands are not statutory zoning

RELATIONAL SECTION / NOT TO SCALE

Life and invention face each other across a park and accessible public edges. Model footprints are not total floor area.

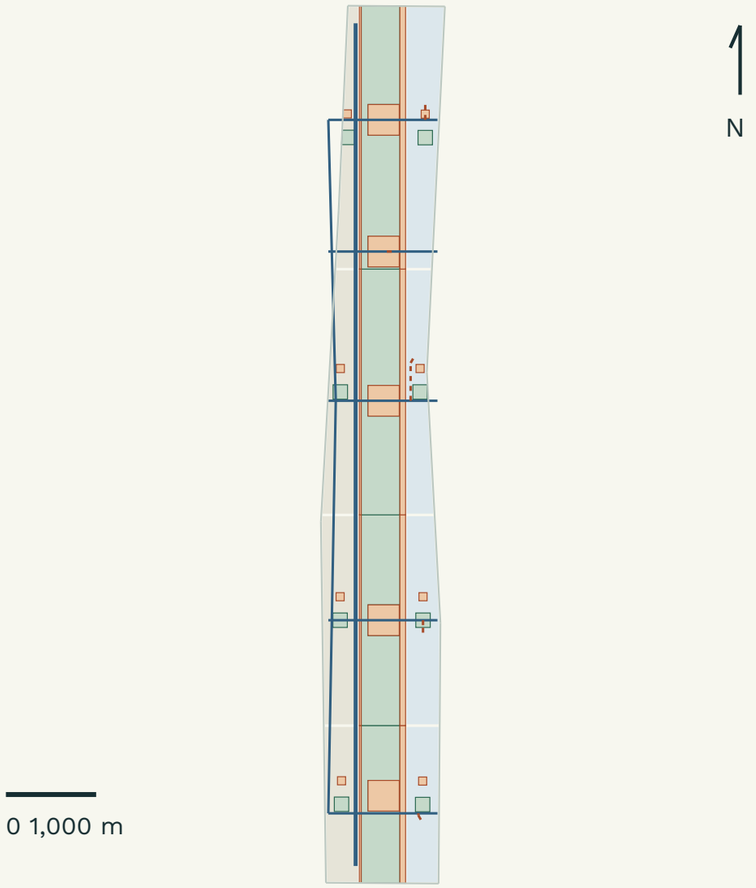

12 land-use cells, partitioned from the same submitted boundary

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

A corridor to cross, a park to stay in

Longitudinal continuity and five cross-connections; public passage precedes experiments

01 NORTH–SOUTH

Continuous green space and walking; concept lines are not engineered alignments.

02 FIVE CROSS-CONNECTIONS

Join both sides; exact positions and road/rail interfaces require professional checks.

03 PASS WITHOUT PARTICIPATING

Keep the no-device route outside tests; faults revert to human services.

Green areas: planting; clay: public space; blue lines: conceptual mobility

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Three areas, three renewal paths

Retain and adapt before inserting; no invented demolition or partnership consent

01 ZHONGZHIYUAN / MAKE

Check available space and Qinghe/Fifth-Ring interfaces; separate public viewing and servicing.

02 ORIGIN / INQUIRE

Start with available ground floors; verify campus/station links before comparing new inserts.

03 DAZHONGSI / EXCHANGE

Prioritise four-quadrant station access and existing projects; do not replace ongoing works by assumption.

COMMON GATES: rights/current use → public value and safety → funded operations → reversible pilot → permanent form.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

A public-space kit with safeguards

Six component types; dimensions are typological, not engineering approvals

ORIGIN

20–40 m

Inquiry and review

MILESTONE

3 × 1.5 m

Version records, not fake relics

CROSSING

20–30 m

Keep public passage

LOCAL COURT

15–30 m

Daily residents first

NO-DEVICE ROUTE

2.5–4 m

No scan needed

YOUTH LIFE

variable

Flexible lawful ground floors

Dimensions describe component types only; siting, accessibility and safety require professional review.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

From a question to maintained work

Eight resource interfaces; all partnerships remain proposals

01
COMPUTE

02
DATA

03
MODELS

04
SCENARIOS

05
PEOPLE

06
RESOURCES

07
POLICY

08
ETHICS

QUESTION → MAKE → AUTHORISED TEST → REVIEW → MAINTAIN

Every interface names users, minimal data, a human baseline, responsibility, stop rules, review and exit.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Test public value before permanent form

A 64-day residency rhythm, not a safety certificate or confirmed programme

01–07

UNDERSTAND

Rights, baseline, local question

08–28

MAKE

Bench, tools, mentors

29–49

VERIFY

Controlled tests and reproduction

50–64

HAND OVER

Demo, limitations, maintainer

START GATE: site permission + accountable operator + secured resources + safety and rights review

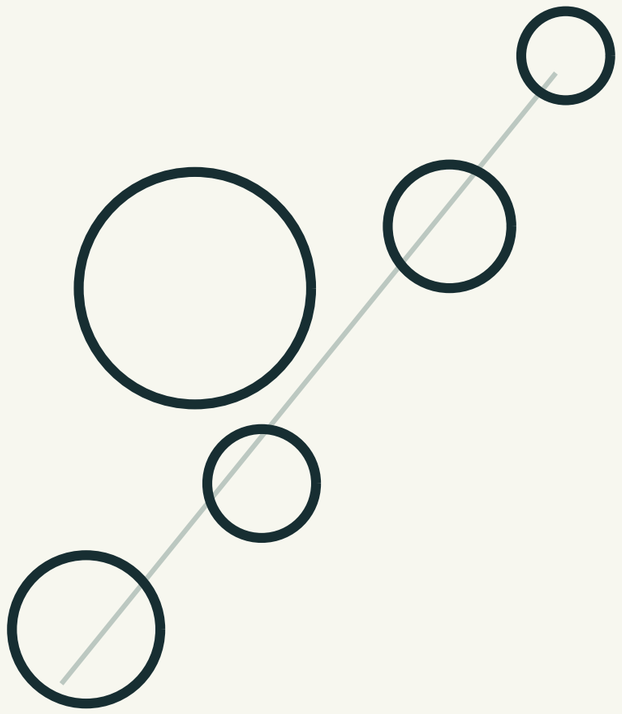

EXIT: stop for a data breach, obstructed passage or safety incident. Do not build permanent facilities without funded upkeep. Review weekly; seek non-participant resident feedback separately.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

From Haidian to an intelligent commons

Separate roles for identity, cultural interpretation and contribution records

BM0

A IDENTITY / CIVIC CONSTELLATION

Five separated circles, one spine and hierarchy. BM0 is a concept subject to trademark review.

B INTERPRETATION / SOURCED PLACE

Explain gardens, academies, railway and makers; cultural signs do not replace navigation.

C CONTRIBUTION / WHO MAINTAINS

Display names with consent, alongside methods, versions and maintainers; not capital rankings.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

Connect Haidian, without invented agreements

Exchange, permission and return paths; relational diagram, not a geographical map

Beiwei community	Questions and youth life
Future Science City	Energy/materials and test needs
Huairou Science City	Research and open questions
Beijing E-Town	Production feedback and first use
Beijing–Tianjin–Hebei	Regional cases and upkeep

Every exchange requires resource-holder consent, data permission, accountability and returned findings.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.

A reproducible model, not a surveyed boundary

Three core visual metrics, one source; no unsupported peer ranking

11.41

km² / model area

site_area_sqm

33.1%

green / excludes hard public areas

green_ratio

12.9%

public space / excludes green

public_space_ratio

RECALCULATION PATH

GeoJSON → EPSG:4548 → polygon area / site area → metrics.json → visual data-value

Green and public-space geometries are disjoint. FAR, height, total floor area and visitors await official data. The 31 records include model outputs, unknowns and non-quantitative arguments; no professional score is claimed.

CONCEPT PROPOSAL · PROVISIONAL GEOMETRY / NOT AN APPROVED PLAN. Recalculate with official boundaries.

Source: submitted GeoJSON / metrics.json; EPSG:4548. Typological diagrams are not engineering plans.
